https://www.linkedin.com/in/fernandotello/

Software developer with 6 years of experience in Angular and Java, and over 3 years specializing in frontend development. Currently pursuing a Master's degree in Artificial Intelligence and actively seeking AI-focused roles. Passionate about leveraging AI to enhance the software development process—making it faster, more efficient, and less error-prone. While my core expertise is in software engineering, I also hold AWS certifications and maintain an active interest in cloud technologies as part of my broader technical toolkit Dedicated to continuous learning and growth.

## EXPERIENCE

**Newfire Global Partners, Frontend Developer** – May 2023 - Present
- Efficiently handled and completed assigned tickets and conducted unit tests to ensure code quality and functionality.
- Proactively proposed and implemented changes to enhance user experience and system performance.
- Achieved a consistently high customer satisfaction rate within the first 6 months of joining the project.
  **Tech stack:** Angular, JavaScript, Go, Karma, Jasmine, Git, Scrum, Figma.

**Globant, Frontend Developer** – Sep 2021 - April 2023
- Reduce initial app load time by redesigning, upgrading, optimizing, and restructuring the code.
- Diminish the number of bugs and code smells by adding different tools to help the development process.
- Reach above the 80% of coverage by implementing unit tests.
  **Tech stack**: Angular, JavaScript, Karma, Jasmine, Git, Scrum, Figma.

**Management Solutions,**

**Tech Lead** – Mar 2021 - Aug 2021
- Deliver 100% of the proposed features of a cost distribution app, leading a team of 3 people, by being the bridge communication between client and project partner, presenting project progress, possible blockers, and future deliveries every end of sprint.
- Reduced an average of 2 hours the bulk upload process by migrating the client's existing desktop application to a better and more modern infrastructure, making it highly available, and fault tolerant by developing, redesigning, testing, and deploying the entire application.
  **Tech stack:** Angular, JavaScript, Karma, Jasmine, Spring Boot, SQL Server, Git.

**Full Stack Developer** – Mar 2019 - Mar 2021
- Reduced the client's workload by 80% by designing, developing, testing and implementing an app that calculates the amount to be provisioned for a leading bank.
- Increase customer satisfaction by redesigning, optimizing, and migrating an application developed in an old framework to a SPA.
  **Tech stack:** Angular, JavaScript, Karma, Jasmine, Java, SQL Server, Oracle, Git.

## PROJECTS
- Mira Que Lindo - miraquelindoperu.com – 2021 **–** Present. Web app for visualizing available products from a crafting company in real time. **Tech stack:** Angular, JavaScript, Firebase, Git.
- CAII 2023 App - "CAII 2023 – Evento" – 2023. iOS app developed to showcase the event schedule and biographies of the speakers. Available in Peru App Store. **Tech stack:** Swift, Git.

## SKILLS
**Programming Languages:** Advanced: JavaScript, Java, TypeScript; Intermediate: Swift.
**Frameworks & Libraries:** Advanced: Angular; Intermediate: Spring Boot; Basic: React, Node.js, Express, GraphQL.
**Databases**: Advanced: Oracle, MySQL, SQL Server; Intermediate: MongoDB.
**Tools**: Git, Github, Gitlab, Bitbucket; CodeShip, Jenkins; Netlify, Heroku, Docker, Firebase, WebFlow; Figma, Adobe XD.
**Agile**: Scrum, Kanban; Jira.
**Languages**: Native: Spanish; Advanced: English (C1); Intermediate: French.

## EDUCATION
**MBIT, Madrid, España.** Master in Advanced and Generative Artificial Intelligence. 2025
**Universidad Peruana de Ciencias Aplicadas, Lima, Perú.** Master in Education. 2024
**Universidad de Lima, Lima, Perú.** System Engineering. 2018
**Udacity, Cloud DevOps Engineer Nanodegree Program**. 2020: Scholarship focus on AWS. Topics covered: Cloud Fundamentals, Deploy Infrastructure as Code using CloudFormation, Build CI/CD Pipelines with Jenkins.

## CERTIFICATIONS
AWS -> Developer 2024; Solutions Architect Associate 2024; Data Analytics Specialty 2021; Cloud Practitioner. 2020
