

Fernando Tello

Madrid, Spain · Senior Software Engineer - Transitioning to AI Engineer

feranto31@hotmail.com · <https://www.linkedin.com/in/fernandotello/> · <https://github.com/FTello31> · <https://fernandotello.me/>

Software Engineer with 6+ years building scalable, distributed web apps. Deep expertise in TypeScript/Angular, testing, and performance, plus AWS certifications (Dev, SAA, DA). Currently completing a **Master's in Advanced & Generative AI (2025)** and pivoting into AI engineer. Act as an owner and main point of contact for applications, partnering closely with leads, mentoring peers, and raising code quality through rigorous reviews. I ship fast and safely, standardize best practices, and collaborate across product team.

EXPERIENCE

Newfire Global Partners - Senior Software Engineer (Frontend-focused) · May 2023 – Present

- **Ownership & leadership:** Act as main point for a couple of internal applications; partner closely with the team lead on roadmap, scoping, and delivery.
 - **Quality bar:** Lead PR reviews, establish coding standards, add unit tests and regression safeguards to improve reliability and developer velocity.
 - **UX & performance:** Propose and ship UX/performance improvements across the app. Achieved consistently high customer satisfaction within the first 6 months.
- Stack:** Angular, TypeScript/JavaScript, Go, Karma, Jasmine, Git, Scrum, Figma.

Globant - Software Engineer (Frontend-focused) · Sep 2021 – Apr 2023

- **Early joiner & refactor lead:** Reviewed extensive legacy code, proposed and executed project re-structuring and modernization for a large multi-team setup.
 - **Team point of contact:** Became the main point within my squad; supported teammates via pair programming and peer reviews; mentored newcomers to Angular.
 - **Impact:** Reduced initial load time via codebase optimizations and asset tuning; decreased bugs/code smells by integrating quality tooling and static analysis gates; achieved >80% unit test coverage.
- Stack:** Angular, TypeScript/JavaScript, Karma, Jasmine, Git, Scrum, Figma.

Management Solutions

Tech Lead · Mar 2021 - Aug 2021

- **Team leadership:** Guided 3 recent graduates entering the industry; ran daily standups and weekly planning; coached on Angular best practices and delivery.
 - **Stakeholder management:** Primary contact between team, client, and project manager; led bi-weekly client presentations, daily team ceremonies, and weekly syncs with management.
 - **Delivery & modernization:** Delivered 100% of committed features for a cost distribution app; migrated a legacy desktop bulk-upload workflow to a fault-tolerant web architecture, cutting average processing time by ~2 hours.
- Stack:** Angular, Spring Boot (Java), SQL Server, Karma/Jasmine, Git.

Full Stack Developer · Mar 2019 - Mar 2021

- Automated a provisioning calculator for a leading bank, reducing ~80% of manual workload.
 - Migrated a legacy application to a SPA, improving UX and maintainability.
- Tech stack:** Angular, JavaScript, Karma, Jasmine, Java, SQL Server, Oracle, Git.

PROJECTS

- CV Analyzer (2025) - LLM-powered résumé parsing & scoring using Gemma 3n served on GroqCloud (LPUs). **Stack:** Python, Next.js, Groq API.
- “CAII 2023 – Evento” (2023). iOS app (agenda + speakers) published in Peru App Store. **Stack:** Swift.
- Mira Que Lindo (2021 - Present) Real-time product catalog for a craft company. **Stack:** Angular, Firebase.

SKILLS

Languages/Frameworks: TypeScript, JavaScript, Angular, React, Node.js, Java (SpringBoot), SQL & NoSQL, Go (basics), Swift.

Architecture & Quality: Modular frontends, design systems, architectural reviews, code review practices, CI/CD, unit testing.

Cloud & DevOps: AWS (CloudFormation, Jenkins CI, Docker), Firebase, Git, Github, Gitlab, Heroku, Docker

Agile: Scrum, Kanban; Jira.

Languages: Spanish, English (C1), French (B1).

EDUCATION

- **MBIT (Madrid, Spain)** - Master in Advanced & Generative Artificial Intelligence, 2025
- **Universidad Peruana de Ciencias Aplicadas (Lima, Peru)** - Master in Education, 2024
- **Universidad de Lima (Lima, Peru)** - Systems Engineering, 2018
- **Udacity** - Cloud DevOps Engineer Nanodegree, 2020 (AWS-focused)
